

Greetings,

What is fairness? It is equal opportunity for all involved.

Fairness is required whenever there are limited resources. For example, 18 parking places for 30 employees, 125 yearly drug tests for 250 drivers, or a few college dorm rooms for bright and spirited students.

Fortunately, there is an independent place where you can obtain fairness, Arrive Software.

We will provide you with 1 or more sealed envelopes of certified choices* which can be opened in front of the selected participants' representative or at a team meeting.

Almost everyone has to deal with limited resources these days. And what better way than with fairness?

How do you spell **problems**? After the company **President's Relative, Oscar, a Blatantly Lethargic Employee, is Miraculously Selected** by your wonderful in-house system, you will need certified selection from an independent source.

*For up to 1,048,576 participants. Let us know if you require fair selection from up to 18,000,000,000,000,000 participants.

See arrivesoftware.com/fair with one of your IT staff or a mathematician for an explanation of the selection method used.

ORDER FORM for Independent Fair Choices

Sessions (maximum 365): _____ Number of Participants: _____ Selected per session: _____

Quantity _____ @ \$32.00 per set of sessions up to 365. Total: _____
